DISCUSSION

The intersection of Thompson Avenue and Titan Way is located in the northeasterly corner of the unincorporated community of Nipomo. Thompson Avenue is an arterial road along the eastern side of the community and provides a local alternative route to Highway 101. Titan Way is the most northerly driveway for Nipomo High School.

A Traffic signal Warrant Analysis completed November 17, 2014 determined that the intersection meets peak hour warrant for both the morning and afternoon period and identified this location as a candidate for signalization.

Currently, the intersection is stop controlled on Titan Way only resulting in lengthy vehicle queues and delays for the traffic exiting the high school which are northbound. The proposed project consists of installation of traffic signals, pedestrian crossing improvements and bus stop upgrades at this location.

The attached License and Agreement for Installation of Traffic Signal Equipment from Lucia Mar Unified School District to the County of San Luis Obispo will provide the County and its contractors with the real property interest required to construct the proposed traffic signal project.

A Right of Entry (ROE-Permit) has also been provided by Lucia Mar USD to allow the County to utilize two additional portions of District property (Nipomo H.S.) for temporary construction staging and to reconfigure pavement markings related to the traffic signal project. This ROE-Permit has already been approved under a previous delegation of authority by your Board to the Public Works Director (or designee).

The approval and execution of the 'License and Agreement' by execution of the attached Certificate of Acceptance and subsequent recording will allow the Department to proceed with construction of this project which is expected in early 2016.
